

Cathy Wright
Mount Vernon
LD 227

Hello My name is Cathy Wright, RN. Hormones are constantly fluctuating during childhood at a minimum up to 18. I do not believe a physician, legislator, state officials, judges, lawyers or any person should allow a sex change / transgenering until the individual is mature mentally & physically enough to understand the potential consequences minimum of 18 years of age. If someone does allow it, it should be considered child abuse. We need to teach people to just BE NICE to everyone whatever they are going through at all stages of life.

Maine should NOT be a sanctuary state for anything!

Maine tax payers should be allowed to vote individually on issues. Politicians are too extreme and ruining our country.

Reference to abortion: it should be limited to 10 weeks max, incest & rape, if fetus is deformed or medically issues that Dr. & patient feel abortion is necessary.
