This bill is not something the people of Maine want or need. This will destroy families and children. There is a reason why children are under parental supervision until they are 18. It is because they can't make logical decisions for themselves. They need guidance from them not the government. It is disgusting that people think this is okay. This should be illegal and we should not be encouraging something that will harm our children. This will encourage young people to come to our state from other states. Stop taking away parental rights. Stay out of our families. Stop teaching this to our children!
