

Nicholas Cain
Denmark
LD 1159

Hello, and thank you for your time. My name is Nick Cain and I'm a resident of Denmark, ME. I am in support of this bill, as I find it common sense and the only equitable way for businesses to operate. I do not use credit cards and know many people that also opt not to use them due to privacy concerns, outrageous interest rates and the fact that many people simply cannot access a credit card due to their financial situation. If passed, this bill would protect the low income and financially unstable individuals in our society to still be able to make the purchases that they need. I find it cruel and unjust that any business would turn away, or furthermore charge a higher fee to someone not financially able to access a credit card. This is classism in it's very name and has no place in our state or country. Please vote in favor of this bill to protect our freedom to pay with cash. Thank you.
