I am here to testify I have been living in a mobile home park in Maine for the last 15 years my mobile home park was bought by Phillips International in 2021 and since they have owned the park my lot rent has almost doubled in the time that they have owned it with nothing else included. I moved into a trailer park because I can't afford to buy a house in the price of renting an apartment is outrageous. I live paycheck to paycheck I need to make repairs to the trailer and with the excessive Park rent it's making it totally impossible to do any repairs because of the greediness of the new owners I am also struggling to put food on my table and paying the rising cost of energy and oil. I am struggling to survive with the excessive raises in rent. please pass this bill Thank You Gary Brunelle.
