

Bruce Clark  
Sanford  
LD 1723

We have lived at Country Living Park since 2002. At that time our lot rent was \$185.00 and the owners were local people who cared about all of us. For many years the increases were relative small. In recent years however, since Phillips International bought the park the increases have continued to go higher and higher. We are 86 years old and on a limited income and its becoming extremely difficult to cope with these increases and be able to pay medical bill, put food on the table and pay the high lot rent. Restrictive rules by the park owners will make it extremely difficult to sell our home whenever the time comes. We desperately hope you will pass LD 1723.
