

Diane Vernesoni  
Topsham  
LD 1943

I URGE you to vote OUGHT TO PASS on LD1943, Resolve, to Establish a Commission to Study the Role of Private Equity in Maine's Economy and in Key Economic Sectors. ONLY IF, this new Commission is made up of equal members from the Republicans and the Democrats point of view. Many Independents, few Greens, Libertarians, Constitutionals, Unenrolled, or No Labels will side with the Democratic point of view so their number should be part of the Democrat side of the equation. Otherwise, I URGE you to vote OUGHT NOT TO PASS. This study could be very useful if it isn't tainted by overspending zealous and poor reporting that seems to hound the Democratic perspective. We are a very poor state and getting poorer all the time due to all the outrageous bills creating even more spending for every cause thought up by mankind. Can you tell I'm fed up?! Because I am! We cannot make every part of life fair, equal, just, and beautiful. We need to get a handle on our state spending us into oblivion. People aren't helped by that. They are enslaved to entitlement programs and lack of learning and skill development. Let's put our hard-earned money towards programs that help people help themselves by learning a skill and getting a job. I'm all about people being proud to work and support their families. That is the kind of Economic Sectors we need to plan out and incorporate into Maine. To bring is back to " The Way Life Should Be."

Thank you for keeping these things in mind when voting on this bill. And, Thank you for your service to our state.
