Fiscal Detail and Notes

Requiring 12% of Federal Block Grant funds be set aside for Indian nations, tribes and bands limits the amount of funding available for the purposes for which they are currently being used. If the remaining 88% of Federal Block Grant funds are not sufficient to accomplish those purposes, or the purposes and programs are not modified to account for a reduction in expenditures, General Fund appropriations may be needed to supplement the federal resources.

Fiscal Detail and Notes

The Department of Health and Human Services is required to enter into a Memorandum of Understanding (MOU) with the recognized Indian nations, tribes and bands regarding Federal Block Grant funding. If the MOU identifies a higher portion of Federal Block Grant funds to go to the Indian nations, tribes and bands than they currently receive, then the remaining Federal Block Grant funds may not be sufficient to accomplish their current purposes. If those purposes and programs are not modified to account for a reduction in expenditures, General Fund appropriations may be needed to supplement the federal resources.
