"The healthcare ombudsman is employed by the state department of insurance, and works with consumers to resolve conflicts, determine long-term care needs, and provide guidance in bringing insurance carriers and the people who need them together." Inmates don't get paid enough to afford anything - let alone health insurance. In most cases, inmates don't get paid - and it's the equivalent of what is known as modern-day slavery. They should have free care. Stop exploiting HUMAN beings. What the hell did your mothers teach you? - I do not support this.
