

Testimony of John W. Royce

LD 376 Resolve to Increase Certain Chiropractic Reimbursement Rates under the MaineCare Program

April 1, 2021

Senator Claxton

Representative Meyer

Members of the Health and Human Services Committee

My name is John Royce and I am here representing the Maine Chiropractic Association. I have supported this same legislation over the last two regular sessions of the Legislature where it passed this committee and went on to the Appropriations table.

Doctors of Chiropractic have been treating MaineCare patients for 21 years without an increase in reimbursement and that is a very long stretch of time. Clearly that amount of time without an increase makes it very difficult for doctors to even come anywhere near breaking even on the cost of care.

The fiscal note on this bill in 2019 was under 52 thousand from the Maine General fund in the 2020, 2021 time frame.

Doctors of Chiropractic are competing in the health care marketplace with a host of other providers and they do so with some of the lowest costs and highest patient satisfaction in the system. Doctors of Chiropractic treat patients without the use of drugs and given our current problems in that area it is more important than ever to keep Doctors of Chiropractic in the MaineCare program. We ask for your support of LD 376 and I will be attending the workshop.

Thank You

John Royce  
Maine Chiropractic Association
