

Elaine Courteau
AUBURN

I support LD1573. I am a Direct Support Professional, but now I work in the office. I work for Personal Onsite Development in Auburn. We employ 20 people. We have a hard time to find new staff. It is hard to pay everything with all the price increases that are happening. We often shuffle money from one thing to another to stay up to date. Please support LD1573. It will help all of the direct care staff in the state and it will help us provide a better service as well.
