

Rosemary Collings
Fort Kent, Maine

I am writing in strong support of LD 1550. As a mother of 4, grandmother of 10 and former teacher of hundreds of students, this bill is extremely important to me. I worked very hard to instill in my students and children the value of healthy living and wise decision making. Big Tobacco has developed a very dangerous strategy to hook young people to smoke..flavored tobacco products in colorful packaging. The big lie that these products are harmless.

This targeting of teenagers is deplorable and must be stopped. Please do your part to protect our youth by supporting LD 1550.

Thank you.
