

Zachary Emmons
Empire vape shop

My name is Zach and I oppose LD 1550. I started smoking at the age of 18 using traditional combustible cigarettes. Years later I was able to quit smoking cigarettes by using flavored e-liquid, it is the flavor that keeps me from traditional combustible cigarettes. LD 1550 will only remove our ability to keep flavors only in the hands of adults and not youths, thus creating an illicit market. Prohibition does not work and, in most cases, makes the problems worse.
