

Bryan Watt  
Sanford

I own B&J's Vapes in Sanford, ME and am against this flavor Ban LD1550. This will take a person's right to choose away and is not fair to someone trying to quit smoking cigarettes. The Heart Association has finally admitted Vaping is healthier than smoking cigarettes and a person should have the right to choose flavors if it helps them quit smoking. This will also destroy our business and force us to close. We have worked hard to have our own business and have the right to continue business without this regulation. With Covid we were already damaged and are barely holding on. Please do not pass this bill. You don't limit alcohol flavors so don't limit these flavors either. this would not be fair to take choice away from the public. Please vote down this legislation LD1550.
