

Joy Watt
Sanford

I own B & J'S Vapes in Sanford Maine. I believe a flavor ban would destroy our business we have fought so hard to build. This takes freedom of choice away from the public and flavors help people quit smoking cigarettes, which the Heart Association has finally admitted is safer than smoking cigarettes. You don't limit flavors in alcohol and should not in any tobacco products either. Covid has already struck our business and we don't need any more unnecessary regulations to hurt us more and force us to close our doors. We would not survive this regulation. Please vote down this bill LD1550 it serves no purpose as kids can no longer buy online and we card customers with an application requiring ID's already. We already do everything we can to keep kids from smoking/vaping and should be given the opportunity to see how we are doing currently before any more regulations are imposed.
