

Deborah Milite
Freeport

To the Committee on Health and Human Services, I am Deborah Milite of Freeport and I respectfully urge all members to oppose LD 1608 An Act To Expand the MaineCare Program To Cover All Citizens of the State. The needy will lose healthcare funds to the able-bodied. Furthermore, I understand our New England neighbor Vermont tried socialized medicine a few years ago and it failed due to prohibitive high cost that would have bankrupted their state; it would do the same for Maine. Thank you for your time and efforts.
