This scientific and lawful information has been censored, banned from MSM inclusive to syndicated social digital platforms. Fortunately people have independent access outside of the entities that threaten, destroy the careers of the brave professionals that have come forward to announce the warnings we all should have been informed of concerning this unending covid 19 insult against scientific evidence, our human health, conscience and integrity to speak and stand for these truths. It is imperative this committee reviews this information as it represents my intention to serve as notice to this committee to support LD 867. I appreciate your time. I have numerous valid resources that could fill pages to submit.

Americans are very informed and are assets/partners in our governance. If you have any questions I will be available to discuss. Most of all I want to thank Our Father in heaven who has strengthened and guided me to submit this information and protected my health as I chose not to be a participant in this covid19 questionable experiment and I pray all members in this committee choose to pass this bill, and May our Lord bless the Legislative members as victors who have authored and co sponsored the good works that become Law in Maine. Thank you Jesus Christ So be It.

May our House be the house on the hill that God finds respite, love and righteousness for our children and people in Jesus Christ amen Thank you bros and sisters God Bless you.
