Honorable HHS Committee,

I am writing to request that you please support LD867, which would stop Covid vaccination mandates until the science is more clear as to the side effect, efficacy, etc. As a freedom loving American I believe in making informed decisions and after 2 years the truth if the science is still murky and hidden from public review. I again ask that you please support LD867 so that the mandates are halted until the science and knowledge is available to make those informed decisions.
