Senator Claxton, Representative Meyer and members of the Health and Human Services committee, Please vote ought to pass in support of LD867 to prohibit mandatory COVID-19 Vaccinations for 5 years to allow for safety testing and investigations into reproductive harm. That said, I am still of the thought there should be no mandated injections or drugs ever, for anyone, at any time. I have lost trust in my government and health institutions. Bribery is not consent. Coercion is not consent. We do not have true informed consent. The manufacturers are not liable. Thank you.
