

David Manter  
Fayette

Members of the Committee,

My name is David Manter and I live in Fayette. I am writing in favor of L.D. 867 and the U.S. and State Constitutions. Both the U.S and Maine Constitutions require that if you are going to intrude upon a person's privacy, including their own body, that you MUST address each individual's situation in a Court and get a judge's approval to interfere with their privacy. Before one offers to allow the government in a sweeping mandate to override this part of both Constitutions, then might I suggest that one amend the Constitution. Otherwise, those who entertain this kind of overreach will eventually cause all of us to suffer the consequences.
