

In the beginning of this pandemic, the CDC recommended we were to mask and social distance for two weeks to flatten the curb. President Joe Biden ran on the platform of transparency and unity. He even stated he would get rid of the Covid virus if elected. Joe Biden promised that he would not mandate vaccination.

At first, we were all told, there was no known treatment for the Covid virus. The vaccine is 100% safe and effective. You will not catch Covid if you are vaccinated.

Joe Biden even claimed, you will not spread the virus if fully vaccinated. You will not have to wear your mask or social distance if vaccinated. Children are at less risk of severe illness. The unvaccinated are spreading the Covid and the new variants.

The authorities began a national campaign including a lottery that Janet Mills launched to push vaccination. They offered free burgers and fries, hunting licenses, ball games and concert tickets, free beer for shots, joints for jabs, lotteries for free college tuition with room & board. A chance to win a million dollars. The ability to travel freely. When all this coercion did not work, the Biden administration illegally began mandating health care workers to be vaccinated or lose their jobs. Why on earth, would you fire health care workers during a pandemic when they are most needed? Businesses of over one hundred employees were forced to mandate vaccination for employment causing disruption in manufacturing and more people out of work. Now, if you are vaccinated but miss a booster, you are no longer considered vaccinated.

When have you ever seen such nonsense in your lifetime or ever heard of these tactics being used in our history? We have never masked the healthy to protect the vaccinated. We have never silenced or removed top scientists, doctors, and nurses' licenses that have an opposing view. Real science is based on discussion from both side of the argument. I now hear nurses saying that we were the heroes in the beginning when little was known. Now we are zeros because we refused to comply. Next, we will be stoned to death for what we have allowed to happen. What have we learned from all of this?

The CDC admitted the PCR tests are faulty showing too many false positives and this was never designed to test for the Covid virus according to the inventor. There was never a sample of the Covid virus to calibrate any test or give to universities to study. Instead, they brought the threshold cycles up so the majority would test positive regardless of the individual was sick with the virus or not. Where did the flu go? The CDC had to change the definition of a vaccine because this drug was never intended to be a vaccine. The proof is that the vaccinated are still catching Covid. This is called Gene Therapy. We have never cut into and spliced synthetic substances into our DNA chain. Once this is done, there is no reversing the effects to come. You are now considered transhuman. The Supreme Court recently ruled that all genetically engineered seeds, plants and humans are now patentable. This means you no longer own your body. The pharmaceutical companies are exempt and cannot be held liable for any adverse effects or death caused by their vaccines. The pandemic was pushed by incentives paid to politicians, state officials, hospital managers, union bosses, and news media outlets for promoting fear to the public.

Some governors even put infected patients in nursing homes to drive up the number of deaths. This is medical malpractice and Tierney. Why even bother to get the vaccine if you can still get infected, be hospitalized, or even die? Why bother getting the vaccine when there is a 99.7% survival rate for my age group? Why get the vaccine when our State recorded a 1% infection rate for last year? What was the average age of the people who died? How many die each year from the common flu? How many had severe health issues? Why take a risk for a vaccine that has only been on the market for a year with no known studies for long- or short-term side effects? Why take a vaccine that does not work and be subjected to taking booster after booster the rest of your life? Is this because your immune system is now compromised? Why take the vaccine when we know all the animals have perished during previous trials? Why take the vaccine when we have other treatments that have been proven safe and effective that fall under FDA approval? What about medical and religious exemptions and those with natural immunity? Why would I take this vaccine if no one is being held liable if I get injured or die? Who is going to take care of all my medical expenses, my personal bills, my mortgage, or payments to my wife as injury or death benefits if something happens to me? Is my employer going to be held for manslaughter if I die? Will insurance companies pay for long term disability if I get injured? Will my life insurance pay out if I die from an allergic reaction from an experimental drug?

Let us look at masking mandates. If masks work, why social distance? If social distance works, then why mask? If both works, why lock down? If all works, why get vaccinated? Breathing in our exhaled breath is not good for anyone for a long duration of time. This creates an atmosphere that promotes respiratory virus infections and lowers our immune system to ward off diseases. This should be considered child abuse if we continue to mask our children. Look at the suicide rates for youths. The mask is dehumanizing and is proven not to protect anyone from a virus transmission. Doctor Scott Gutly former FDA Commissioner and now CEO of Pfizer recently stated, mask offer little to no protection against the covid virus. He went on to say that the Covid virus is airborne. This means transmission is much easier than originally thought because of the micron size of the virus as an aerosol.

The mask encourages people to behave aggressively, hatefully, and violently towards their fellow citizens. This is proven when we see riots and mobs where people get more brazen in doing bad things because they hide their identity. Masking is a psychological attack on our freedom and the exception of this enslaves people's hearts and minds. This is all about total control over the lives of people using F.E.A.R., (False Evidence Appearing Real). The fact to the matter of everyone in the world having to mask is not about science at all. It is all about compliance creating civil obedience to authority. If the government can make us all cover our nose and mouth, inhabiting our every breath we take for life, you no longer own your body. What will be required next if you are willing to give up so much, so easily? The definition of insanity is doing things over-and-over again to obtain a different outcome. Please, do not impose mandates on the people of this great state. We are smarter than this and demand that we have a right to choose.
