Good morning,

I am testifying today regarding the topic of mandatory vaccines for covid 19 as it pertains to the following –

LD 867 - An Act To Prohibit Mandatory COVID-19 Vaccinations for 5 Years To Allow for Safety Testing and Investigations into Reproductive Harm

I personally have seen vaccine injury in my personal life as friends and patients of mine have suffered greatly from the covid 19 vaccine. I have been witness to multiple significant side effects including blood clots, heart attack, angina, bell's palsy as well as joint pain and mouth sores.

I have been working in health care since 1994 and I have never in my life seen the staff as overworked, overstressed and under appreciated as they come in daily to unsafe situations that have been magnified due the vaccine. The virus is not the unsafe factor – it is the fear, stress, intimidation and peer pressure that has been applied to the backs of the staff .

Children are not being affected as originally predicted – and they are suffering from seclusion and isolation, their grades are plummeting due to online school or lack of school all together. The suicide rate and illegal drug use has

I would ask that you consider the right of the people to make their own decisions regarding their healthcare as this is not the dangerous deadly virus that was initially portrayed. We are educated and we want the right to make our own choices and by passing LD 867 It allows for us to have a little more time to gather more information regarding this experimental treatment.

Thank you
