

1/10/2022

To whom it may concern,

I am asking the committee to please vote "ought to pass" LD 867 - the Act to Prohibit Covid-19 Vaccine Mandates as I am in full support of this bill.

I am a single mother, head of household with a mortgage and bills to pay without any money coming into my home due to this current vaccine mandate. Providing food for my son and myself is not a luxury, it is a necessity.

My healthy livelihood has been taken away from me because of a mandated NEW vaccine that we do not know the ramifications of years to come.

Prior to 10/29/2021, I was a self-sufficient, financially stable, valued and respected employee and coworker as well as a good law abiding citizen and community volunteer.

Now, my child is worried the bank will take away our home. Why should this be when I am, and have been willing to work (and have) the entire time I was allowed during Covid?

Please stop the mandate to allow for investigations of this vaccine's true nature over time which will in turn regain the trust of the medical community and government again.

I will then regain my dignity once again and be employed in the field I have been best primed.

With sincere gratitude,

Kimberly Topar
