

Linda Hardy  
Hancock  
LD 811

Dear HHS Committee,

My name is Linda Hardy. I am a lifelong resident of Maine. I have just been informed that you are hearing a bill today on an Act to protect reproductive rights and freedoms of Maine People. With no language attached to this bill, alarm bells are blaring! How is this considering the will of all of Maine's Citizens? What is going on?

You have allowed no information, no notice to prepare testimony for a bill with no language! I can only assume that with today's language semantics, you are trying to allow abortion under any and all circumstances!

Today, people are increasingly aware that this solution to unplanned or unwanted pregnancies is not always the best answer. I'm here to point out to you that with the availability of the abortion pill, more young girls and women are suffering from trauma associated with the misinformation of the effects, both temporary and permanent of this serious action.

Vote No to this attempt to rush through this effort to usurp the proper channels of putting forth legislation by the PEOPLE.

Very Sincerely,  
Linda Hardy
