

Colin Vettier
Portland
LD 2

Hi,

My name is Colin Vettier and I live in Portland, Maine. As a resident of the city, my encounter with homelessness, its stigmas and its intersectional issues (drug abuse, mental illness, etc.) daily. I believe that we can do a lot better than this for our community (and by community, I include our members who have to live without a home).

In my opinion, we need to provide funding for the 24-hour-a-day supportive services that make Site-based Housing First a successful solution for people with complex needs experiencing chronic homelessness.

I am in favor of LD 2 and hope that it will come into action ASAP so we can start addressing the housing crisis.
