RE: LD 1710

I oppose LD 1710 for the following reasons:

Section 3

I am on Social Security. I have a rental unit that supplements my income. I do not believe the government should be in the rental business.

Section 4

My rental unit is affordable and, under your "rules," it would not be for many renters. Why is the government going into Small Businesses?

Section 5

The government cannot control its trillion-dollar budget. Why would anyone want a contract with a government that cannot control its contractual obligations? NO contract with the government.

Finally

There is too much overreach by government; both State and Federal.
Leave Small Businesses to make their own decisions.

Respectfully submitted,

Al Dravidzius
