To The Committee reviewing the bill formally known as LR 236, now officially known as LD 804 proposed by John Smith, Sweden, Maine. I would really encourage everyone to support this bill. About 11 years ago I had a hip implant, and was one of the lucky one because of the many problems that others have had with the surgery and the implant. For the hospitals and doctors not to alert each and every recipient of problems as that have come to the forefront regarding implants is a moral sin. I had not realized that the public was not made aware of issues. Please move this bill forward to right the wrong that has occurred and for many years. Thank-you.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Cynthia Gorman', written in black ink.
