

Daniel Boyden

Dear Committee members,

Thank you for first considering a bill to help out those of us in the music industry in our state. It has been a challenging year for all and I've fully understood why our industry hasn't received much aid. There were far more important places at the onset of the pandemic to be putting our time and resources. Now as we are nearing a hopeful end to this pandemic I feel its important to remember that we were the first to shut down and we will be the last to reopen. And when we are able to return to full strength we will be there to spread communal joy, a much needed antidote from this time of isolation and fear. Any support that you could give to see us through until that day can finally come would be greatly appreciated.
