

Dave Morrison
Camden (ME) Opera House

Good Morning, and thank you for considering this important bill. Arts venues and entities are crucial to our communities not only for their cultural value, but because they become downtown and business drivers, and make our communities more attractive, livable, safe and interesting. This bill will be a meaningful step in preserving and supporting this crucial sector and all the Mainers who work in it and have suffered so much from the pandemic.
Thank you.
