

Dan Phillips
Naples

Naples, Maine.

I have been employed by a Quality Company in the Sheet Metal Trade for 30+ Years.

I believe this will hinder construction in Maine.

I do not wonder why our young people leave this State, you are making it harder and harder to make a good living here.

I believe this is part of an underlying agenda to push forward unionization.

I believe you already have the Better Business Bureau and OSHA. Redundancy does not make things "Better", Just more hoops to jump through.

I believe this will ultimately be yet another reason you will raise taxes and business expenses.

Why do you think People Move / Retire to Florida? Not the heat, TAXES, Plain and Simple.

In this I Me Now state /world, you actually want to add more Entitlement?

I end with something we've all said this once a day;

"Why does He / She have a drivers license? "

Licenses does not insure Safety, or Quality.
