I oppose LD 142.

When I was a sophomore in high school a friend and I were in the library looking at the occupation book. You could look up your choice of occupation and see how it ranked. I wanted to work with wildlife, and looked up associated jobs. It was rated low job openings and my friend said that was because you had to wait for someone to retire for a job to open up.

I was thinking that might be a risk worth taking, my friend was saying it was a big risk to go for that. The smartest guy in school overheard, and came up and said, "why do you want to be a wildlife biologist? They decide how many wild animals get killed.

Since the methods employed in killing black bear or for the most part, disgusting and inhumane, I oppose LD 142
