

Kerri Hilton
Windham, ME

I am a summer resident of Little Sebago Lake in Windham, ME. Hearing the loons call as I fall asleep and seeing them diving and living as I enjoy the lake during the day is just one of the many things I love about Maine. I am writing to express my support of LD394 as it will provide the option for required permits to be denied if the requested permitted event or action is likely to endanger local loons or other precious wildlife populations.

In the same way that a road race or block party is evaluated for its potential impact on surrounding communities, so too should events on our lakes, ponds, and rivers.

Thank you.
