

Deborah Loomis Lafond
Gray

I support any legal endeavors to preserve loon habitats and the integrity of the surrounding shoreline. Erosion from speeding boats and craft that are too large for a given waterway is its own problem but it also decreases water fowl habitat. As a Little Sebago Lake waterfront property owner since 1963, I have seen the increasing damage caused by unregulated boat traffic. I welcome IF&W ability to regulate permits. I encourage the legislature to adopt LD 394.
