

Cornelia Clarkson  
Brunswick

To whom this concerns,

The airboat operation in Freeport and Brunswick area along the coast is very disturbing. The airboat noise is an unwelcomed noise and inconvenience for the Mainers who have lived on their respected properties for a long time. I find that waking up at 5-6 in the morning to the howling winds of the motors is extremely annoying. I believe that the airboats hassle with the ecosystem as well as the scenery of the coast.
