

Bruce Kantner
Brunswick

My name is Bruce Kantner and I reside in Brunswick on Rossmore Road, nearly 1/2 mile from Maquoit Bay. I've been awakened in the early morning many times, often at 4:30-5:00 AM, by airboats and find their loud engines disturbing throughout the day and in all seasons.

I urge you to vote again LD 114 because it doesn't go far enough in limiting airboat noise. 90 dbA is very loud, especially when it is amplified off the water surface.

I do support LD 89 but would prefer a lower cap, especially during the "exception" hours of 7PM to 7 AM.
