I am in favor of Sunday hunting in Maine. Old Blue Laws are the only reason why there is no Sunday hunting here and it goes back to when Maine and Mass were one state. It is way past time to repeal this. I would personally be in favor of treating it like the other 6 days of the week and not require any additional written permission. Far too many people work 6 days a week now so opportunity would be increased and make it more fair for everyone. Besides that, many people now go to NH, VT and NY instead of Maine from out of state for the increased hunting opportunities.
