Resident

I would like to voice my support for LD 1033, SP0325 An Act To Allow Sunday Hunting on Private Property with the Written Permission of the Landowner. I have read many of the comments on this bill. None of the comments in opposition have a valid point. This bill will allow Sunday hunting only on private land and only with written permission. There is plenty of public land that can be accessed, seven days a week by people worried about hunting, where hunting isn't allowed at all. If you own land and you don't want people hunting on your land on Sunday, don't give written permission. If you don't own land, then you aren't paying taxes and shouldn't have a say on how others can enjoy the land that they are paying taxes on. It's that simple! It's time to put an end to this archaic law and let people enjoy their own land, or land of others who will allow Sunday hunting. I work five days a week, can't wait to get out to hunt on Saturday, and am devastated when it's raining and or windy! No one else should be able to tell me that I can't do the thing that I love to do on my own land, just so they can do the things they want to do, when they want to do it. You don't have to worry about getting shot on my land, because it's posted and will stay posted until our legislators come to their senses and recognize the rights of landowners. The youth of Maine need more time to be able to hunt and enjoy the full outdoor experience that is so precious to so many of us!
