Resident

I would like to add another comment regarding 1054, HP0783 An Act To Allow Hunting on Sundays with Written Consent on Private Property.

If people are worried about animals being hunted seven days a week, or worried that they don't have a day to go into the woods with having to worry about people hunting, then legalize Sunday hunting and take away Monday hunting. I have to take vacation if I want to hunt more than one day a week. It's only fair that others should have to take vacation on a Monday to have the woods to themselves.
