

Robert Ludwig
Moosehead Riders ATV Club

The Moosehead Riders ATV Club wishes to go on record supporting LD 1439. We take the rules and regulations very seriously and work non stop for 5 months of the year maintaining 90 miles of trails, educating the riding public, meeting with land owners and working with town and state authorities on safety concerns. Our location means we are a major hub with hundreds of in-transit riders arriving from all parts of New England on a typical day. We urgently need the additional funds this bill would create to purchase materials and hire contractors if we are going to continue to meet established requirements. Club workers actually ride very little for enjoyment spending much of the week shoveling, raking, removing rocks, re-decking bridges, installing sign posts, etc to save costs. However, much of the needed work such as grading and hauling gravel can only be performed using contractors already busy with a booming construction era.

Thank you for supporting our work.
Moosehead Riders ATV Club Officers and Directors,
Greenville
