

Patrick Robichaud
Sanford

Good day, I'm a 54 year old Maine native, I've been active in y local community as well as the hunting and fishing communities in my state.

I'm also a blue collar working man who doesn't get to have many days off to enjoy and participate in my heritage of hunting and providing alternative sources of local wild proteins for myself and family.

Adding Sunday's to my availability to be afield would greatly help to enjoy and possibly prospering to my family heritage of hunting.

This would also help encourage younger people to possibly experience the Maine woods and wildlife.
