

Tim Swihart
Grand isle

I believe in the right to hunt on Sundays. They're alot of hard working people that are at their jobs Monday through Friday. This would offer them one more day to be out in nature. This would also offer an extra day for people like myself that rely on the game we harvest to feed our family.. it has been proven that hunting is a great asset to the land. This would offer alot more chances for the new generation to get out and enjoy hunting also. Thanks Tim Swihart
