RE: LD 1663 - An Act To Improve Boating Safety on Maine Waters

Dear Inland Fisheries and Wildlife Committee,

Boats in Maine are more numerous and more powerful. Living on a lake for 17 years I have witnessed an increase in negligent and dangerous boating behavior. The harm that can be caused to life, property and wildlife by uneducated boaters is simply too great a threat to ignore. I urge you to pass LD1663.

Sincerely,
Martina Witts
