Briefly...until I know more about what is included in the education being done in our schools, I am 100% against this.

Can the department offer us detailed lesson plans of what each class will cover and the goals they wish to accomplish in the class(s)? And the all-encompassing goal(s) in general?

I am not in favor of The Sportsman's Alliance of Maine being involved in any of it.

I do know most parents are not supportive of guns being anywhere near their schools. It's not the place.
