

Tod Brown
Bowerbank
LD 1763

Dear Senator Baldacci, Representative Roberts, and distinguished members of the Committee:

I am writing to urge you to support LD1763 and ban these floating camp structures on Maine lakes.

My family has owned a Camp on Sebec Lake since the 1880's. I feel that allowing floating camps will significantly impact lake quality. The multiple impacts of raw sewage leaking into a lake makes me shudder. Not just the human health safety, but the impact on the lake fishery itself.

Please vote to ban these eyesores and protect our lake water quality.

Respectfully,
Tod P Brown
