

PAUL DEORSAY
Megunticook Watershed Association
LD 1763

Ladies and Gentlemen of the Committee:

I write today to support LD 1763. I am a board member of the Megunticook Watershed Association and a Lake Smart Surveyor. I am acutely concerned with the health and beauty of our great ponds and coastal waters, and the floating structures with which this bill is concerned are a threat to both. The confusing and overlapping regulatory structure is in urgent need of the clarification this bill will provide. I urge you to forward this bill to the legislature for consideration and vote.
