

Tom Larned
Kennebunk Pond Association
LD 1763

As chair of the Board of Directors for the Kennebunk Pond Association, representing 181 shoreland property owners, our entire organization is very supportive of the proposed guidelines in LD1763.

Allowing non-water-dependent floating structures on small ponds, such as ours, is just not reasonable. And, it certainly makes the most sense to regulate such structures on all inland waters.

Please provide your support for LD1763.
