I am Urging you please vote OUGHT TO PASS on LD332, An Act to establish Mandatory Minimum Sentences for Gross Assaults Against Children and Aggravated Sex Trafficking of Children. While it would seem to me to be quite obvious for the need of such a law, I will say that this Child Abuse that is becoming more and more prevalent, unfortunately, needs to be addressed in a VERY HARSH WAY. In an effort to deter people from such behavior, we need to make the punishment something they really don't want to deal with at all. If this doesn't work for them, then there needs to be even more proactive consequence, like LIFE IN PRISON! Our most precious resource is our children. They are needed to carry on the burden of keeping our world a nice place to live. Keeping these bad actors out of the stream for a while may help them to realize how inappropriate their behavior is. If not, they should not be allowed among us and our precious children. I urge you to do your part and vote OUGHT TO PASS on LD 332. Thank you!
