We are writing to you in full support of the recently introduced bill LD-537 "*An Act to Prohibit the Doxing of a Minor and to Authorize a Related Civil Action*", and to advocate for digital privacy protections for children in Maine.

Recently, State Representative Laurel Libby distributed identifying information about a minor to promote her political platform which was shared with The Maine Policy Institute's media outlet, *The Maine Wire*. Representative Libby also chose to tag Attorney General Pam Bondi in a successful attempt to find a national audience for the now-viral posts.

These posts shared a minor's image, school, outed their gender identity, and baselessly claimed that this child was a safety risk to others. An elected official using a minor to advance a political agenda—and, without cause, labeling that child as a threat by stating their presence violated the safety of others—is not only reprehensible and abusive but should also be illegal. The careless disregard for the child's well-being was evident in Representative Libby's complete lack of effort to safeguard their identity, or to advocate against the negative and hateful comments that followed.

*Out of respect and protection for the minor involved, we will not be sharing the posts or comments.*

LD-537 provides some critical protections for minors from doxxing. States such as Illinois, Utah and Arkansas have enacted laws sponsored by both Democrats and Republicans to protect minors from doxxing, some with felony consequences. In addition to this crucial protective bill, we would like to see the additional protections included:

- Include protections that bar the distribution of a minor's likeness and identifying information without explicit parental consent or when the purpose of distribution is to dox, bully, intimidate, or harass the victim. Identifying information includes but is not limited to the minor's name and any one of the following: school, likeness, address or town, phone number, sexual orientation or gender identity, and biometric data.
- Provides misdemeanor and felony consequences in proportion to the severity of the effects of the doxxing upon the victim.
- Requires that all media posts that are currently in circulation in violation of doxxing a minor be immediately retracted.
- Imposes an automatic censure on any legislator charged under LD 537.

Our children deserve a safe online environment where their identifying information is protected from those that intend to misuse that information and cause them harm. We applaud the efforts underway for as legislators you have the power to champion policies that ensure all children's rights and privacy are safeguarded.

Thank you for your leadership and commitment to protecting our children.
