LD 260

Trump and Project 2025 are actively dismantling rights for everyone who isn't a white male. They are following the playbook of Hitler, Putin, Orban, and other authoritarian and fascist monsters. Until we are able to pass a national ERA, we in Maine must protect ALL our residents with LD260, the Maine Inclusive Equal Rights Amendment.

Without this guarantee of rights, we are vulnerable to Trump's assault on our civil rights.

Look at our amazing roster of strong women leaders in our state! This would not be possible if the Trump/ Musk/ Project2025 regime has its way.

Please support and PASS LD260, the Maine Inclusive Equal Rights Amendment.
