

Kathy Strand
Portland
LD 260

I urge the Judiciary Committee to support LD260 with a bipartisan vote of ought to pass because protection of rights that affirms the dignity and humanity of each and every person living in Maine is well-suited to be enshrined in our state's Constitution. Your support moves this action one step closer to a vote by Mainers themselves. And truly Maine voters should be the ones to determine whether or not the inclusive ERA should be part of the Maine Constitution --so I urge you to give us this opportunity!
