LD 1109

Dear members of the Judiciary Committee:

This atrocious bill, LD 1109, not only entirely violates our state and Federal Constitutions, but it would do absolutely nothing to save lives or lower crime whatsoever. It's is nothing but "feel good" law, and utter nonsense. Even if it were to "pass", nothing will stop criminals and citizens alike from getting what some call "higher capacity" magazines. Second, anyone, especially criminals, can easily just obtain and carry more magazines, or even carry more than one gun. Carrying a second or even three guns is what used to be called a "New York reload". Plus do not support this idiotic legislation, just to satisfy the paranoid city folk. Such laws have virtually nothing to do with our safety. Thank you for your time.

Yours truly,  
James Andrews
